

Looking for a speaker to address:

- The Value of Human Life?
- ProLife Apologetics?
- The Impact of Abortion?

Abigail Lorenzen, Operations & Media Director at Allen County Right to Life, would love to speak to your group!

Bible Study Groups, Church Groups, 8th Grade Classes, High School Students, College Students, Youth Groups

Looking for a speaker to address:

- The Value of Human Life?
- ProLife Apologetics?
- The Impact of Abortion?

Abigail Lorenzen, Operations & Media Director at Allen County Right to Life, would love to speak to your group!

Bible Study Groups, Church Groups, 8th Grade Classes, High School Students, College Students, Youth Groups

Abigail's presentation has two parts. The first is fetal development facts and statistics about how abortion is affecting the US and the second part is how a person might think through the moral issue of abortion, using logic and science, and respond to someone who believes abortion to be justifiable. Abigail also provides a Fetal Development class appropriate for children in the 3rd grade. Abigail is always happy to tailor her presentations to the need of your specific group.

Biography: A graduate of Concordia University Chicago, Abigail started working with Right to Life in 2014 and quickly realized the pro-life movement was a place where her passions meet the world's needs. She has spoken at conferences, schools and churches across the country, teaching how to talk about abortion with people who may not share a Christian worldview. She focuses on a dialogue that is compassionate and based on God's natural revelation. She also enjoys co-hosting the I Choose Life News and Views Radio Program.

Here's what people have said about her presentations:

"The abortion speech changed my opinion to pro-life!" – High School Senior

"A lively, age-appropriate presentation. The presentation complemented our discussion of the 5th Commandment. Faithful to God's Word." - Pastor Doug Christian, St John Flatrock

"Superb! Highly relatable and clear-cut. 8th graders got a lot out of it and it made a real impact." – 8th Grade Teacher
