20. To help us better understand your pro-life position could you please tell us why you consider yourself to be pro-life, if you have pro-life qualifications that would be helpful for us to know and how you plan to use your elected position to support life.

I unequivocally believe that human life begins at conception and ends at natural death. I believe in affirming a consistent ethic of life for all people, born and unborn. I believe that the right to life is the most basic, fundamental, and sacred of all human rights. I believe that every public policy must protect the human right to life, and condemn every infringement upon that right, including abortion.

I understand that abortion is deemed "legal" by the Supreme Court, and laws banning abortion are not enforceable at this time. I support all legislative attempts to make abortion more difficult, costly, or time-consuming to obtain or provide.

My pro-life position is formulated by both my Catholic faith and my understanding of natural law and the non-aggression principle.
