2020 School Board
Candidate Survey - Pg 2
Please return by Sept 11, 2020

8. To help us better understand your pro-life position could you please tell us why you consider yourself to be pro-life, if you have pro-life qualifications that would be helpful for us to know and how you plan to use your elected position to support life.

I will first state that I was a young mother, giving birth my senior year in high school. Due to me being raised that life begins at conception, abortion was never an option. I gave birth to the most amazing little boy that now at 19, is attending college, playing football, and wants to be a police officer. How many people will he save in the future they may not have been had he not been given the chance to breathe life? If elected I will fight to keep planned parenthood out of schools as well as encourage fetal development curriculum and promoting abstinence. Every human has the right to breathe regardless of how they were conceived.

Your response to #8 will be used by the Right to Life of Northeast Indiana PAC to help determine endorsements, will be available to individuals on request and will be posted on our website, but will not be published in our voter education material because of space limitations.
